

A 95% INCREASE IN CONSTRUCTION DEATHS?

SIMPLE AS ABCC.

Since the **Australian Building and Construction Commission** began its attack on unions in 2004, safety has suffered. From 19 fatalities in 2004-5, the number blew out to 37 in 2007-8 and 31 last financial year. The ABCC targets the role of unions in making building sites safe.

**Stop the ABCC
abusing human rights.**
