

THE BIG RESOURCE COMPANY

SALE

Chevron, Woodside, Sino Steel and others can sell our resources but NOT our future.

Resource companies and their subcontractors are using loopholes to bring temporary workers from overseas onto WA resource projects with dodgy visas. These workers are being exploited and wages and conditions are being massively undercut.

As well as putting these workers at risk, the resource companies and others are avoiding any obligation to hire

local workers and to train local kids to do this work. It's time for ALL Western Australians to join the community rally to let resource companies know that we want **fair pay and conditions for all workers on WA projects** with training opportunities and jobs for us, our kids and our grandkids.

RALLY: HURRY ACT NOW... DON'T MISS OUT!

TUESDAY NOVEMBER 29TH AT 12 NOON

CORNER PERTH ESPLANADE AND BARRACK STREET.

IT'S A CHANCE FOR ALL WESTERN AUSTRALIANS TO SAY...

'You can sell our resources but not our future'.
